You have now established a secure wireless connection between the Access Point and the Wireless TV Receiver. Again, none of the above happens. I have also tried a factory reset. This yields a "gear" icon on TV screen that takes 5 or so minutes to load. This is followed by a "double gear icon" on tv screen that loads more quickly.

These new Arris Freesat boxes support 4k / UHD. But since there is a severe lack of 4K content on UK TV, only the youtube and Netflix apps on the box will currently support 4k. The boxes will also support " wideband " Inbs, like those LNBS used for SkyQ. This will explain why the non recording receiver has two inputs for two tuners.
