Around the World in 12 Years and 12 Square Meters: Memories and Insights By: Steffen P. Russak A lot can happen in 12 square meters: you can fall in love, see the world, and go on the greatest adventures of your life. Although small in size, the Fuchur opened up the entire world to Steffen Russak and his beloved wife Marianne. Their adventures spanned multiple countries, languages, and cultures. All this began with one dream of traveling the world and truly enjoying every minute. When Russak's sweetheart of 55 years lost her battle with breast cancer, he chose to memorialize her through his book, sharing their tales with the entire world. His dream is to inspire other explorers to embrace the world around them by traveling and soaking in the experience it has to offer.

This textbook covers in one volume all topics required in the pure mathematics section of single subject A-Level Mathematics syllabuses in the UK, as well as a significant part of the work required by those studying for Further Mathematics and for A-Level
