Research, Standard
Setting, and Global
David Britton
Financial Reporting
aids researchers in
conducting research
relevant to global
financial reporting
issues, particularly
those of interest to

Online Library International

financial reporting
standard setters.

Research, Standard
Setting, and Global

Financial Reporting:

.describes the relation
between research and
standard-setting

issues .explains how

a variety of research
designs can be used

to address questions

motivated by standard-
setting issues,

Online Library International

including valuation
research and event
studies. .offers
examples of research
addressing a specific
global standard-
setting issue - use of
fair value in
measuring accounting
amounts .offers
further opportunities
for future research on
specific standard-
setting topics by

Online Library International

providing motivating questions relating to the major topics on the agendas of the FASB and IASB.

.explains how the IASB aims to achieve its mission of

developing a single set of high quality accounting standards that are accepted worldwide.

.summarizes extant

Online Library International

Evidence on the relative quality of accounting amounts across global standard-setting regimes and whether global financial reporting is achievable or even desirable. Research, Standard Setting, and Global Financial Reporting examines opportunities for

Online Library International

future research on
issues related to
globalization of
financial reporting by
identifying motivating
questions that are
potentially avenues
for future research."
