Blackstone's Handbook for Policing Students 2013 has been developed from the best-selling Blackstone's Student Police Officer Handbook to reflect the multitude of avenues into the police force now open to future police officers, from pre-entry courses to PCSOs and Specials. Designed specifically to meet the new requirements of police training, this book is a must-have for those embarking on a career in the police. Parts of initial police training common to all new entrants are easily identified and there are specific chapters on qualification structures and training and assessment, meeting the needs of students whether you are entering policing through pre-entry schemes or through an alternative qualification route. This new structure means it is possible for students to omit certain Parts of the Handbook whilst still meeting the mandatory requirements of the revised IPLDP Diploma in Policing. Divided into six parts, representing key stages in your progression from pre-entry programmes (where appropriate) in Parts 1 and 2, to initial training and then confirmation, the Handbook leads you through the topics, covering theory, discussion and practice while developing skills of analysis, problem solving and forms of reasoning. Coupled with a comprehensive and accessible style, the book ensures you have the knowledge and understanding necessary to undertake independent patrol in a professional and competent manner. Key topics covered include Stop, Search, and Entry; Alcohol and Drug Offences; Sexual Offences; Interviewing; and Intelligence. Blackstone's Handbook for Policing Students 2013 is essential reading whether you are taking a pre-entry course or the IPLDP Diploma in Policing, looking to move on from your role as a PCSO or Special, or are involved within the security and law enforcement sector.

Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency—the South African Police Service (SAPS)—that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers, probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

This sixth edition of the book is thoroughly revised and enlarged according to the latest syllabi and trend of the various competitive exams and also taking into consideration the feedback from the readers. Chapters on Trigonometry and Geometry have been included in this edition. New and better short-cut methods, based on logics, to solve the questions have been explained in this edition. Important questions from various competitive exams have been included. This book will also be useful for many competitive exams having objective quantitative aptitude as one of the paper.

Does a more academic type of police education produce new police officers that are reluctant to patrol the streets? What is the impact of gender diversity and political orientation on a police students' career aspirations and attitudes to policing? These are some of the questions addressed by this longitudinal project, following police students in seven European countries. The unique data material makes it possible to explore a wide range of topics relevant to the future development of policing, police education and police science more generally. Part I presents an overview of the different goals and models of police education in the seven participating countries. Part II describes what type of student is attracted to police education, taking into consideration educational background, political orientation and career aspirations. Part III shows the social impact of police education by examining students' orientations towards emerging competence areas; students' career aspirations; and students' attitudes concerning trust, cynicism and legalism. The overall results show that police students are strikingly similar across different types of police education. Students in academic institutions are at least as interested in street patrolling as students in vocational training institutions. Gender and recruitment policies matters more in relation to career preferences than education models. The national context plays a more important role than the type of police education system. Written in a clear and direct style, this book will appeal to students and scholars in policing, criminology, sociology, social theory and cultural studies and those interested in how police education shapes its graduates.

Topic-wise Bank PO/ Clerk Prelim & Mains Solved Papers Reasoning 2nd Edition consists of past solved papers of Bank Exams - IBPS PO, IBPS Clerk, SBI PO, SBI Clerk and Specialist Officer from 2010 to 2018. □ The coverage of the papers has been kept RECENT (2010 to 2018) as they actually reflect the changed pattern of the Banking exams.
